Serving Croton Harmon and Hendrick Hudson School Districts

M.O.M.'s Recommendation

Is your son or daughter just starting to play baseball or softball?

The Sportys DVD is a fun animated way to introduce your son or daughter to the fundamentals of baseball! My little guy just started T-ball and he loved how it explained the game in a fun way. The ball, "Stitch" teaches the characters how to play the game by explaining balls, strikes, good sportsmanship and where to throw the ball when. After he was finished watching it he turned off the TV and ran outside to play ball! Now that's inspiration for you!

It costs 19.95 and shipping is FREE. To find out more about The Sportys, future sports and its creator, Sports Attorney Bobby Barad, go to www.thesportys.com
